In Sport mode, accelerator characteristic curve and steering (also shifting times with automatic transmission) are configured to be sporty. With screen radio there are sports instruments with display of power and torque. In Green mode the driver is assisted in maintaining a consumption-optimised style of driving; by smart control of energy and climate management and systems and displays, such as e.g. the gearshift display. The MINIMALISM Analyzer supports and motivates the driver additionally in maintaining a consumption-optimised style of driving (consumption savings up to 20% are possible). 	in combination with 359	X	X	X	0,00	
	in combination with 7Y1 / 7Y2	X	X	X	0,00	
534	<b>Automatic air conditioning</b>	X	X	X	8.118,12	2-zone automatic air conditioning: all temperature, air distribution and air volume control is automatic and independent of driving speed. Contains the following: - 5 climate styles (automatic programs) for setting the desired intensity - Solar sensor for sunlight-dependent control - Air-quality sensor for automatic air recirculation - Combination filter with activated charcoal for fresh air and recirculated air - MAX AC function (maximum cooling of interior) - Defrost function (rapid defogging of the windows) personal settings are saved in key-dependent profiles
	in combination with 7Y1 / 7Y2	X	X	X	0,00	
	in combination with 7Y0	X	X	X	8.118,12	
544	<b>Cruise control with braking function</b>	X	X	X	0,00	cruise control from approx. 30 km/h also for hill descents by additional braking intervention. Functions: - Active braking intervention: if engine drag torque is not enough to maintain a preset speed on overrun, controlled braking intervention helps to reduce speed automatically - Curve Speed Limiter (CSL): during controlled cornering, speed in the longitudinal direction is reduced if necessary as a function of measured lateral acceleration. The vehicle accelerates back up to desired speed as it exits the corner. - Comfort Dynamic System (CDS): "Manual accelerator mode", as it is known, enables the driver to accelerate and reduce speed steadily in two dynamic stages by means of a control on the steering wheel. The desired speed is thus reached more rapidly and the driver can accelerate or slow the vehicle in the flow of traffic without having to estimate the target speed in advance
	only with 249	X	X	X		
550	<b>On-board computer</b>	X	X	X	3.510,49	Read-out in the information display of the Revolution counter and remote control via steering column stalk. System is active between 30 and 140 km/h - High-beam assistance: at speeds of 50 km/h and higher, the high-beam headlights are turned on and off automatically, depending on approaching traffic; also detects sufficient exterior lighting, for example in built-up areas - Road signage recognition: camera-based display of speed limits and no-overtaking zones - Person warning and Approach control warning warn and brake in a speed range from approx. 10 km/h to 60 km/h. Approach control warning also warns of potential collision with a vehicle ahead at higher speeds, with preconditioning of the brakes for faster brake response and shorter braking distances. If an accident cannot be avoided, the braking functions help to reduce the impact speed. By default, the function is always available when the vehicle is started. The approach pre-alert can also be configured to specific driver preferences in the MMI menu (early, medium, late). - Windscreen sticker "Safety by MINI"  Note:

6NM	MINI Connected	X	X	X	0.00	part of option code 6FP Radio MINI Visual Boost or option code 609 Navigation system Professional. No single option code offering. Perfect integration of Apple iPhone/iPod Touch and Android devices into the vehicle. MINI Connected-specific apps contain, on a country-specific basis, applications such as web radio, Facebook, Twitter, etc. As a new feature also display of calendar entries from smartphone calendar on the on-board monitor. Details, information, FAQs and support: www.MINI.com/connectivity. Function and content updates and extensions/changes possible via the Apple Apps store of the telephone services provider. In addition, all apps that are 'MINI Connected ready' are supported. Information is shown in MINI look & feel in the display of the central round instrument, control is sure and intuitive by the MINI controller, also possible by multifunction steering wheel. Audio output via the in-car audio system.  Note: offer and functional scope can differ, depending on equipment fitted and on country. We reserve the right to make changes to the graphics and to the functional scope of MINI Connected. A broadband data connection is needed; the costs this entails (e.g. data roaming) are part of the customers contract with the mobile wireless network provider. The MINI Connected app is available free via the Apps store of the terminal-device provider (check country-specific requirements and preconditions). Updates possible at no extra cost. Add-ons and bolt-ons might be subject to cost. If other MINI Connected compatible apps become available they will be flagged/communicated accordingly ('MINI Connected ready'). Compatibility of terminal devices is part of functional scope of MINI Connected. MINI.com/connectivity. Note:
