Mostly Dealer Maintained except for oil changes which were completed at 5000 mile intervals religiously by me using only Mobil 1 5w-30.

Tires are Yokohama and are about 50% used. Handle great in wet and dry weather.

Brakes are in great shape and were replaced just over a year ago.

The JCW package on this car boosts HP to 200HP from 165 and is a FACTORY option.

Just turned over 100K miles.

Car is in EXCELLENT Condition. Never abused or raced.

Asking \$11,500.00
