8.2011

Annual Inspection. Once a year, or every 15,000 miles, you should inspect drive belts, water pump and fan clutch, coolant hoses, suspension and steering linkages and joints, driveshaft flex discs, engine and transmission mounts, brake pads/rotors/calipers/hoses, exhaust systems, fluids, etc., looking for premature wear. We describe everything you need to do in the Winter, Spring and Summer 2009 issues of our tech newsletter, *Fast Times*. You can read/download the issues at www.BavAuto.com/newsletter. (Go to the Archives section and click on 2009.) And if you have any questions, call "Otto" at the number(s) listed at right during normal business hours (Mon thru Thu 8am–9pm; Fri 8am–7pm; Sat 9am–4pm).
